Pharmaceutical Press

Pharmaceutical Press produces a wide range of print and digital products including reference works, textbooks, professional titles and subscription products. *The British National Formulary* is published by Pharmaceutical Press in conjunction with the BMJ Group. High quality professional magazines are produced by PJ Publications, and PJ Online provides access to online content and daily news updates. MedicinesComplete is an internationally recognised online subscription service. While developing existing brands such as *Martindale*, *Stockley's*, and *Clarke's*, Pharmaceutical Press continues to launch new products and embrace all appropriate media in order to respond to customer needs.

Inspection Copies

Inspection copies of Pharmaceutical Press textbooks are available to lecturers who are considering the book as a recommended core text. For further information, visit www.pharmpress.com/inspectioncopies

Bulk Sales

Multiple copies of Pharmaceutical Press titles are available at discounted rates. For further information or to discuss additional special sales requirements, please email pharmpress@rpsgb.org and include Bulk Sales in the subject line.

Martindale: The Complete Drug Reference Thirty-seventh Edition

Edited by **Sean C Sweetman**, Prepared by the editorial staff of the **Royal Pharmaceutical Society**

The two volumes of *Martindale* provide unbiased, evaluated information on drugs and medicines in clinical use around the world. Drugs are explored in a variety of contexts with nearly 700 disease treatments detailed. Graphical representations of the chemical structures of many of these drugs are also provided.

New for the thirty-seventh edition:

- Extensively revised
- Expanded coverage of drug synonyms to include more names from Russia
- Coverage of proprietary preparations expanded to 41 countries and regions, now including Ukraine
- Herbal ATC codes added
- UNII codes added (FDA's Unique Ingredient Identifiers)
- Chapters reorganised with a new chapter on Pharmaceutical Excipients
- Over 200 new monographs
- New multilingual lexicon of pharmaceutical terms that may be encountered on prescriptions

Information on drugs – the monographs

- Synonyms, chemical names
- Molecular formulae, molecular weight, CAS registry numbers, ATC codes, UNII codes
- Molecular structures
- Pharmacopoeias

- Physical Characteristics
- Actions and uses
- Adverse effects
- Precautions, including contraindications
- Interactions
- Pharmacokinetics
- Uses and Administration, including pharmacology and dosages
- Preparations and brand names

Contents:

Vol A:

Over 5,800 monographs on drugs and ancillary substances arranged in 49 chapters. These chapters generally each deal with a group of drugs that have similar uses or actions. The last chapter in this volume consists of monographs on substances not easily classified elsewhere.

Vol B:

Preparations. Lists the composition of more than 160,000 proprietary preparations
 Directory of Manufacturers: Contains full names and addresses (where available) of 15,000 manufacturers and distributors in 41 countries and regions.

General Index: Prepared from over 172,000 entries, includes entries for drugs (UK, US and international approved names, synonyms, and chemical names), preparations, pharmaceutical and therapeutic groups, and clinical uses (disease treatment reviews).

Martindale is available as print and online.

'This is the most reliable and respected reference on international drugs'. *Doody Enterprises*

Martindale: The Complete Drug Reference, 36th Edition will be available until the end of December 2010.

British National Formulary

Published jointly by the *British Medical Association* and the *Royal Pharmaceutical Society*

This essential reference provides up-to-date, practical guidance on prescribing, dispensing, and administering medicines. The BNF details medicines prescribed in the UK, with special reference to their uses, cautions, contra-indications, side-effects, doses, and relative costs. It enables healthcare professionals to

maximise the benefits of drug treatment and minimise the risks, while encouraging good compliance with treatment.

Updated every 6 months, the BNF evaluates clinical evidence from diverse sources. The information is validated by a network of clinical experts and is published under the authority of a Joint Formulary Committee. The BNF reflects current best practice as well as legal and professional guidelines relating to the use of medicines.

The BNF is available in print, e-book, online, and for use on mobile devices. BNF Intranet can also be purchased. For more information please visit www.pharmpress.com/bnf

Also available via all major subscription agents.

BNF for Children

Published jointly by the **British Medical Association**, the **Royal Pharmaceutical Society**, the **Royal College of Paediatrics and Child Health** and the **Neonatal and Paediatric Pharmacists Group**.

BNFC is the essential resource on the clinical use of medicines wherever children are treated.

It has been developed to meet the needs of GPs, paediatricians, pharmacists, dentists, nurses, health visitors, and students training to join these healthcare professions. BNFC provides:

- Guidance on the drug management of common childhood conditions
- Practical advice on topics such as prescription writing and reporting adverse drug reactions
- Hands-on information on prescribing, monitoring, dispensing, and administering medicines for childhood disorders
- Comprehensive dosing guidance for children from birth up to 18 years
- Details (including indicative prices) of products on the market as well as reference to many essential products that are not licensed
- Indication of the licensing status of drugs

BNFC is available in print, e-book, online, and for use on mobile devices.

Nurse Prescribers' Formulary for Community Practitioners 2009-2011

Published by the **British Medical Association** and the **Royal Pharmaceutical Society** in association with the **Community Practitioners' and Health Visitors' Association** and the **Royal College of Nursing**

The *Nurse Prescribers' Formulary for Community Practitioners (NPF)* is designed for use by nurse prescribers such as District Nurses and Specialist Community Public Health Nurses (including Health Visitors) who have completed the nurse prescribers training scheme.

The NPF provides an overview of some common conditions together with details of the medicines that may be prescribed by Community Practitioner Nurse Prescribers for patients receiving NHS treatment. It also includes a list of the Controlled Drugs and the indications for which they may be prescribed by Nurse Independent Prescribers and contains details of preparations which nurses may prescribe for patients receiving NHS treatment.

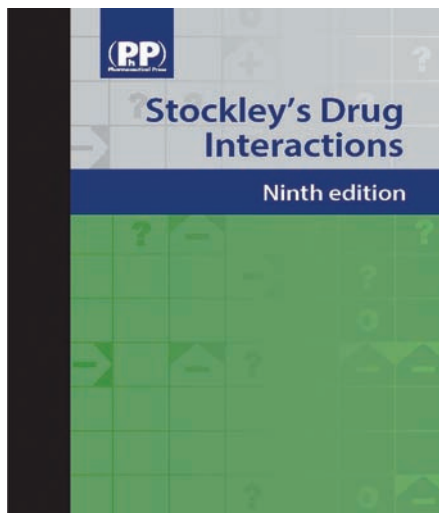

Issued every two years, this work is designed for use with the BNF (*British National Formulary*).

Nurse Prescribers' Formulary for Community Practitioners 2011-2013 will publish in October 2011.

Stockley's Drug Interactions Ninth Edition

Edited by **Karen Baxter**, Consultant Editorial Advisor: **Ivan H. Stockley**

Stockley's Drug Interactions, edited by Karen Baxter, remains the world's most comprehensive and authoritative reference source on drug interactions. It provides the busy healthcare professional with quick and easy access to clinically relevant, evaluated and evidence-based information on interactions between therapeutic drugs, proprietary medicines, herbal medicines, foods, drinks, pesticides and drugs of abuse. Based upon the many thousands of published clinical papers and reports, *Stockley's Drug Interactions* provides a series of detailed yet concise monographs designed for quick and easy reference.

- Provides comprehensive details of the clinical evidence for the interactions under discussion, an assessment of their clinical importance and gives clear guidance on how to manage the interaction in practice
- Contains over 3,700 monographs
- Comprehensively referenced

New for the ninth edition:

- Over 300 new monographs
- New and updated chapters on the interactions of thyroid hormones, urological drugs, nutritional agents, supplements and vitamins
- New drug information including: fesoterodine, sitagliptin, dasatinib and temsirolimus
- Increased commentary within monographs relating to the involvement of newer mechanisms in drug interactions

Available in print, CD ROM or online.

'This reference is both comprehensive and well organised... This is an extremely useful book. The information is thorough, concise, clinically relevant, and referenced to the primary literature.'

Doody Enterprises

'Stockley's Interaction Alerts' are derived from the full text of *Stockley's Drug Interactions* and are also available via MedicinesComplete and for integration in prescribing and dispensing systems.

Handbook of Pharmaceutical Excipients Sixth Edition

Edited by Raymond C Rowe, Paul J Sheskey, Marian E Quinn

Published jointly by *Pharmaceutical Press* and the *American Pharmacists Association*

The Handbook of Pharmaceutical Excipients is internationally recognised as the authority on the uses, properties and safety of excipients. The new sixth edition contains 340 fully-referenced monographs, written by over 140 expert pharmaceutical scientists and individually reviewed and updated since the last edition.

New for the sixth edition:

- 40 new monographs including Glycine, Hydroxypropyl Betadex and Tagatose
- New coprocessed excipients monographs including Cellulose, Microcrystalline and Carboxymethylcellulose Sodium, and also Lactose, Monohydrate and Corn Starch
- Many additional excipients covered as related substances
- Harmonisation of pharmacopoeial information highlighted for relevant monographs

- More selective approach to laboratory data, to reduce potential confusion resulting from variations in test methodology
- Comparative laboratory data retained where relevant or useful in showing source or batch differences
- Contextualised to show a range of both common and uncommon pharmaceutical applications
- Extensive data on the applications, licensing and safety of excipients

Monographs are extensively illustrated, with SEMs, chemical structure diagrams and two-colour NIR spectra, line graphs, and tables to support easy interpretation of the accompanying text.

Available as print, CD-ROM and online.

'...the publisher and editors have once again published an excellent book which has utility for all of us involved in the pharmaceutical industry.'

Clarke's Analysis of Drugs and Poisons Fourth Edition

Edited by *Anthony C Moffat, M David Osselton, Brian Widdop*

This practical manual and standard reference work provides the definitive source of analytical data for drugs and poisons. It is intended for use primarily by scientists faced with identifying and quantifying these substances in body fluids, tissue samples and pharmaceutical and industrial products.

The completely revised and expanded fourth edition of *Clarke's Analysis of Drugs and Poisons* has been written by over 40 international experts, and also boasts an editorial advisory board of over 45 world renowned scientists.

Volume one contains 44 chapters by leading international scientists covering the practice areas and analytical procedures used in analytical toxicology. Volume two contains 2112 drug and poison monographs detailing physical properties, analytical methods, pharmacokinetic data and toxicity data.

New for the fourth edition:

- Over 200 new monographs including metals, natural toxins and weapons of mass destruction
- New and updated chapters on pharmacogenomics, paediatric forensic toxicology and method development and validation
- Over 300 updated monographs including amphetamine, morphine and MDMA

Clarke's Analysis of Drugs and Poisons is available as print and online.

Clarke's Analysis of Drugs and Poisons, Third Edition will be available until the end of December 2010.

Rules and Guidance for Pharmaceutical Manufacturers and Distributors 2007

Compiled by *Medicines and Healthcare products Regulatory Agency (MHRA), London, UK*

Since its first publication in 1971 this text, commonly known as the 'Orange Guide', has been an essential reference for all involved in the manufacture or distribution of medicines in Europe.

The Orange Guide collates in one convenient and authoritative source European and UK guidance documents and information relating to the manufacture and distribution of medicines for human use. Compliance with Good Manufacturing Practice and Good Distribution Practice requirements is essential in the production and distribution of medicines for human use to safeguard public health and comply with legislation.

Changes to this edition include:

- Detailed changes to the EU guide to good manufacturing practice
- Detailed revisions to the EU Directive on medicinal products for human use
- The new Directive on the Principles and Guidelines on Good Manufacturing Practice of Medicinal Products for Human Use
- Restructured contents and clearer text design
- A subject index

The Orange Guide is available in print, CD ROM and online.

'As a reproduction of official rule and regulations that every manufacturer needs, this is a must-have item for any endeavour doing business within the EU or planning to do so in the future.'

Herbal Medicines Third Edition

Joanne Barnes, Linda A Anderson, J David Phillipson

Herbal Medicines provides a comprehensive single source of scientifically rigorous, impartial information on over 150 of the most commonly used herbal medicinal products. The third edition has been extensively revised and updated.

Features include:

- Full colour throughout, with chemical structures and photographs of the plant and crude drug material
- 152 monographs, comprehensively referenced, detailing phytochemical, pharmacological and clinical aspects of each herb (uses, dosage, evidence of efficacy, adverse effects, contraindications, use in pregnancy and lactation, drug interactions, etc.)
- New monographs on butterbur (*Petasites hybridus*), greater celandine (*Chelidonium majus*), kava (*Piper methysticum*) and rhodiola (*Rhodiola rosea*)

- Monographs on around 20 major herbal medicines substantially revised, including echinacea, evening primrose, ginkgo, ginseng, St John's wort and valerian
- Product information from over 30 countries including Australia, Germany, UK and USA.

Written by experts in the fields of pharmacognosy, phytochemistry, phytopharmacy, clinical herbal medicines, phytopharmacovigilance and regulation of herbal medicinal products, *Herbal Medicines* is an invaluable reference text for pharmacists and other healthcare professionals who require evidence-based information on herbal medicines used for treatment and prevention of health problems.

Available as print, CD-ROM and online.

'This third edition has excelled in the delivery of vital information in a bright, easily read, modern but detailed manner... The strength of this book lies in the accumulated knowledge and experience of the authors.'

Stockley's Herbal Medicines Interactions

A guide to the interactions of herbal medicines, dietary supplements and nutraceuticals with conventional medicines

Edited by *Elizabeth Williamson, Samuel Driver, Karen Baxter*

Stockley's Herbal Medicines Interactions is the first professional-level major reference work to bring together available clinical and experimental interactions data on over 150 of the most commonly used herbal medicines, dietary supplements and nutraceuticals in highly structured, fully referenced and rigorously assessed monographs.

Monographs include:

- nomenclature
- global, fully-indexed synonyms
- British, European and US pharmacopoeial information
- constituents (including standardisation information where applicable)
- common uses and indications
- interaction-specific pharmacokinetics
- herbal medicines, dietary supplements and nutraceuticals interactions
- comprehensive primary reference list.

Written by experts in the fields of drug interactions, the clinical use of herbal medicines, phytopharmacovigilance and regulation of herbal medicinal products, this is an invaluable reference text for pharmacists and other healthcare professionals who require evidence based information on the interactions of herbal medicines, dietary supplements and nutraceuticals.

Available as print, CD-Rom and online

'This book is an invaluable source of information. It is well structured such that the readers find instantly what they have been looking for. It is also comprehensive and authoritative'.

Focus on Alternative Therapies

'...highly recommended as the number of patients taking these products along with prescription and non prescription medications increases.'

Dietary Supplements Third Edition

Pamela Mason

The third edition of *Dietary Supplements* has been completely revised and updated to include the latest findings on the most commonly used dietary supplements. This publication will help professionals obtain up-to-date information on safety and efficacy.

Dietary Supplements includes:

- 82 comprehensively referenced monographs
- Full revisions and updates on all monographs, with particular emphasis on: antioxidants, calcium, creatine, glucosamine, omega 3 fish oils, probiotics, selenium and vitamin
- 10 monographs new to this edition on: methylsulfonylmethane (MSM), nickel, pycnogenol, phytosterols, psyllium, quercetin, resveratrol, silicon, tin and vanadium
- Regulations relating to dietary supplements in UK, Europe and the USA
- Useful appendices including a summary of interactions with conventional medicines

Dietary Supplements is an essential reference source for pharmacists, dieticians, CAM practitioners and other health professionals.

Available as print, CD-ROM and online.

‘...a valuable reference source for many of the common dietary supplements on the market. This updated book is well suited for health professionals given its easy-to-use format and well referenced monographs.’

MedicinesComplete

Trusted Unbiased Global

Reliable Information at Your Fingertips

MedicinesComplete is an online solution which offers access to the world's leading drug information resources. Our unique collection of evidence based, unbiased pharmaceutical information provides practical guidance and insight to pharmaceutical and clinical practitioners, scientific researchers, and regulatory professionals

Flexible Solutions

MedicinesComplete offers a range of subscription options with a diverse selection of products, allowing you to 'pick and mix' according to your requirements. Our flexible pricing scale is designed to meet the information and budgetary needs of your organization.

Core Content

- Monographs covering drugs, poisons, excipients and herbals
- Support for prescribing, dispensing and administering drugs and medicines, e.g. interactions
- Up-to-date guidance on disease treatments, disease management and therapeutics
- Reviewed and regularly re-evaluated by experts in their field.

Injectable Drugs Pocket Guide will be added to the platform in March 2011.

Contact us for further information, pricing and trials:

E-mail: sales@medicinescomplete.com

Tel: **+44 (0)20 7572 2464**

Web: www.medicinescomplete.com

The above should also be contacted in respect to pricing for network, consortia or group deals or for further information regarding the integration of content within pharmacy or clinical systems.

"...an excellent, easy-to-use reference source which can be as comprehensive as you need and with a pricing structure that seems to have genuinely considered the needs of their customers."

The screenshot displays the MedicinesComplete website. At the top, there is a navigation bar with links for Home, Welcome, Feedback, and Help. Below this is a search bar with the text 'Search across all publications' and a 'SEARCH' button. The main content area is titled 'Welcome to MedicinesComplete' and features a 'LATEST NEWS' section with the headline 'Coming Soon: A New Look for MedicinesComplete'. The 'PUBLICATIONS' section lists various resources available on the platform, including:

- ANPS Drug Information
- BNF for Children
- British National Formulary
- Clarke's Analysis of Drugs and Poisons
- Dietary Supplements
- Drug Administration via Enteral Feeding Tubes
- Handbook on Injectable Drugs
- Herbal Medicines
- Martindale: The Complete Drug Reference
- Pharmaceutical Excipients
- Rules & Guidance for Pharmaceutical Manufacturers & Distributors
- Stability-Indicating HPLC Methods for Drug Analysis
- Stockley's Drug Interactions
- Stockley's Herbal Medicines Interactions
- Stockley's Interaction Alerts
- The Merck Index

The Pharmaceutical Journal

ISSN 0031-6873

www.pjonline.com

Editor: **Olivia Timbs**

The Pharmaceutical Journal (PJ) is the official weekly journal of the Royal Pharmaceutical Society. As well as providing comprehensive news coverage of all aspects of pharmacy in Britain and developments in other parts of the world of relevance, *The PJ* publishes technical articles and reviews on medicines and medicines use. Also included are letters, book reviews and reports of international conferences, and it publishes a highly regarded continuing professional development section. Classified and display advertisements cover, among other things, appointments in community, hospital and industrial pharmacy.

Clinical Pharmacist

ISSN 1758-9061

www.clinicalpharmacist.com

Editor: **Matthew Wright MRPh arms**

Clinical Pharmacist is the leading clinical pharmacy publication in Britain and is published 11 times per year. Concentrating on issues of direct relevance to hospital pharmacists, primary care pharmacists and leading-edge community practitioners, the publication enables readers to keep abreast of current advances in their fields and assists them in expanding their professional skills and knowledge.

Clinical Pharmacist also includes news features, research papers and articles on the treatment of clinical conditions, enhanced by accredited online "Lifelong Learning" modules.

PJ Online – Gateway to the World of Pharmacy and Medicines

www.pjonline.com

PJ Online is a constantly evolving website that contains the content from *The Pharmaceutical Journal* and other PJ Publications, as well as original material.

A subscription to *PJ Online* includes access to the content of all PJ Publications as well as daily news updates, careers advice, ask-the-expert sessions, interactive forums and the invaluable archive.

PJ Careers (www.pjcareers.com) is the job board for *PJ Online*, and is the principal source of UK pharmacy jobs. *PJ Online* is available to all RPSGB accredited schools of pharmacy for free during 2011.

Tomorrow's Pharmacist

Editor: **Benedict Lam MRPharmS**

www.tomorrowpharmacist.com

Tomorrow's Pharmacist is an invaluable online open resource for pharmacy students, preregistration trainees, newly registered pharmacists and anyone interested in a career in pharmacy. Packed with advice and guidance on placements and careers within pharmacy, interesting and useful articles for pharmacy students and competitions, *Tomorrow's Pharmacist* is the perfect one-stop shop. It also provides opportunities for readers to voice their thoughts and opinions through the blog pages, opinion pieces and *Tomorrow's Pharmacist's* Facebook page. *Tomorrow's Pharmacist's* students' corner is published in association with the British Pharmaceutical Students' Association.
