## MyiLibrary

[www.myilibrary.com](http://www.myilibrary.com)

MyiLibrary® is an online eBook and eContent resource for academic, medical, professional and corporate libraries the world over. Their unique aggregation platform offers organizations the ability to acquire and access digital content on an individual title, publisher-specific or subject collection basis, based on their unique requirements and resources. With over 175,000 titles currently available, covering all major academic disciplines, MyiLibrary has the most comprehensive online eContent resource available on the market today. This is supported by flexible authentication, comprehensive search and retrieval capabilities and the ability for individual users to annotate and store searches and notes for access at a later date.

MyiLibrary offers a robust platform from which to access eContent. Key features of the MyiLibrary platform include:

- Simultaneous Multi User Access • Full Text Searching • Copy, Paste and Print • Bookmarking
- Saving Searches • Reporting • MARC Records • Multiple Authentication Access
