Martindale
THE COMPLETE DRUG REFERENCE
38TH EDITION

- New edition of the leading source of unbiased, evaluated information on drugs and medicines in use around the world
- Content has been extensively referenced by qualified pharmacists
- Reformatted and redesigned layout, helping you find answers quickly
- Leading international coverage, covering proprietary preparations in 43 countries and regions

Improvements to the new 38th edition

- Redesigned – the pages have been completely redesigned to make them easier to read
- Restructured – the layout of the monographs have been restructured, giving more space to Uses and Administration
- New content – includes over 200 new monographs
- Expanded – the coverage of proprietary preparations has been increased to 43 countries and regions, including China
- Updated – the abstracts on porphyria have been extensively revised
As the definitive reference source for anyone working in or studying pharmacy, Martindale provides reliable, unbiased and evaluated information on drugs and medicines. It is compiled by pharmacists for pharmacists, based on published information and is extensively referenced.

Expanded coverage in the new edition includes:

- Over 6,000 (and over 7,000 online) drug monographs
- Almost 700 disease reviews, with references and links to the published literature
- Over 54,000 reference citations
- Extensive coverage of 43 countries and regions, with selected preparations from a further 6 areas
- Over 180,000 (and over 240,000 online) preparations
- Almost 20,000 (and over 25,000 online) manufacturers and distributors
