pharmpress.com
Pharmaceutical Press has been publishing information for pharmacists since 1841. With over 150 print titles and digital resources we support healthcare professionals to make informed decisions in healthcare, industry and academia – providing essential information needed for study, research and at the point of care.

In 2020, we are publishing new print editions of:

- **Martindale: The Complete Drug Reference** – The 40th edition of this trusted and independent work provides unbiased and evaluated information on drugs and medicines used around the world

- **Palliative Care Formulary** – The 7th edition is an essential resource for healthcare professionals who care for patients with progressive end-stage disease

- **British National Formulary & British National Formulary for Children** - Continually updated to reflect the latest evidence from credible sources, these new editions provide the latest guidance on prescribing, dispensing, and administering medicines

- **Handbook of Pharmaceutical Excipients** – The internationally recognised, authoritative source of information on pharmaceutical excipients giving a comprehensive guide to uses, properties and safety

- **Pharmacy Registration Assessment Questions 4** – Updated with more than 400 entirely new, closed book and calculation questions in line with current GPhC guidance

**How to order:** To order or find out more about our resources visit [www.pharmpress.com](http://www.pharmpress.com).

An online version of this catalogue is available at [www.pharmpress.com/catalogue](http://www.pharmpress.com/catalogue).

Our trusted resources are available by subscription through MedicinesComplete, the definitive online resource for drug and healthcare information. Find out more at [about.medicinescomplete.com](http://about.medicinescomplete.com).

Best wishes,

Karen Baxter

Essentials of Nonprescription Medications and Devices
Edited by Elaine D. Mackowiak

Essentials of Nonprescription Medications and Devices provides a quick, comprehensive reference of products available for self-care. Each chapter covers a common medical condition.

978 0 85369 861 6 • £33.00 • 240 pages • 2009

Introduction to Renal Therapeutics
Edited by Caroline Ashley and Clare Morlidge

An introduction to various aspects of drug use in renal failure. Covering a variety of diseases affecting the kidneys, this book discusses the disease process and treatment. It also addresses the role of the pharmacist in patient care. Case studies and questions and answers are included at the end of each chapter.

978 0 85369 688 9 • £38.00 • 320 pages • 2008

Pharmacy Management of Long-term Medical Conditions
Edited by Ross Ferguson and Jonathon Burton

This book is designed to support primary care pharmacists working in community and GP practice pharmacy to help people manage their long-term medical conditions (LTMCs). It shows how pharmacist can use their expertise to improve health outcomes and quality of life for people with LTMCs by ensuring they get the best out of their medicines.

978 0 85711 405 1 • £30.00 • 256 pages • 2020
**Prescribing Adult Intravenous Nutrition**  
Edited by Peter Austin and Mike Stroud  
An introductory text offering the inexperienced healthcare professional involved in nutritional support, a practical guide to the principles and practice of adult parenteral nutrition. This work describes: why nutritional care is so important; what should be given; what can go wrong; how to deal with any IVN related problems; and more.  
978 0 85369 658 2 • £40.00 • 320 pages • 2007

**Paediatric Drug Handling**  
Edited by Ian C. Wong, Catherine Tuleu, Ian Costello, Vincent Yeung, and Paul Long  
Suitable for pharmaceutical scientists, this title provides a background in paediatric pharmacy and a comprehensive introduction to children's medication. It deals with the pharmacokinetics and pharmacodynamics of drugs and formulations in children of different ages.  
978 0 85369 686 5 • £33.00 • 144 pages • 2007

**FASTtrack: Therapeutics**  
Edited by Nadia Bukhari and David Kearney  
A guide for students providing bullet points of basic information on therapeutics. It focuses on what pharmacy students really need to know in order to pass exams, providing concise, bulleted information, key points, tips and important self-assessment section which includes MCQs, case studies, sample essay questions and worked examples.  
978 0 85369 775 6 • £28.00 • 240 pages • 2009

**Drugs and the Liver**  
A Guide to Drug Handling in Liver Dysfunction  
Edited by Penny North-Lewis  
Enables the practitioner to assess liver function using biochemical markers, other tests, signs, symptoms and disease knowledge. This practical guide covers background information on liver function, the principles of drug use in liver disease and includes a section of worked examples of commonly asked questions.  
978 0 85369 710 7 • £38.00 • 344 pages • 2008
Complementary and Alternative Medicine
Second Edition
Edited by Steven B. Kayne

Complementary medical treatments are popular. This book provides a practical introduction and reference source on the products frequently requested in community pharmacies and in hospitals. It features chapters on complementary therapies such as massage.

978 0 85369 763 3 • £43.00 • 624 pages • 2008

Dietary Supplements Pocket Companion
Edited by Pamela Mason

This Pocket Companion provides busy healthcare professionals with a conveniently sized quick reference text. It draws on the wealth of evidence-based information on the most commonly used dietary supplements presented in the full reference work Dietary Supplements.

978 0 85369 761 9 • £25.00 • 296 pages • 2008

Nutraceuticals
A Guide for Healthcare Professionals
Second Edition
Edited by Brian Lockwood

This authoritative book assesses the medical and scientific evidence for the use of nutraceuticals for prevention or treating important disease states.

978 0 85711 242 2 • £38.00 • 448 pages • 2007

FASTtrack: Complementary and Alternative Medicine
Edited by Steven B. Kayne

It focuses on what pharmacy students need to know in order to pass exams, providing bulleted information, key points, tips and a self-assessment section which includes MCQs, case studies, sample essay questions, and worked examples.

978 0 85369 774 9 • £28.00 • 208 pages • 2008
Prescribing Medicines for Children
From drug development to practical administration
Edited by Charlotte Barker, Mark Turner and Mark Sharland
Prescribing for children is a particularly challenging discipline due to specific issues of drug absorption, metabolism, distribution and excretion. The aim of this book is to improve understanding in all aspects of paediatric prescribing, from the development of suitable drugs through to their practical administration.

978 0 85711 135 7 • £60.00 • 650 pages • 2019

Quality Assurance of Aseptic Preparation Services: Standards Handbook
Fifth Edition
Edited by Alison M. Beaney
Quality Assurance of Aseptic Preparation Services Standards Handbook (also known as the Yellow Guide) provides standards for unlicensed aseptic preparation in the UK, as well as practical information to aid implementation of the standards.

978 0 85711 307 8 • £46.00 • 272 pages • 2016

Pharmacy and the US Health Care System
Fourth Edition
Edited by Michael Ira Smith, Albert I. Wertheimer and Jack E. Fincham
Pharmacy and the US Health Care System offers a complete insight into the US health care system including the personnel and institutions, as well as concise reports on trends, regulations, policy and finances.

78 0 85711 022 0 • £49.00 • 480 pages • 2013
Practice: Drug Preparation

Handbook of Extemporaneous Preparation
A Guide to Pharmaceutical Compounding
Edited by Mark Jackson and Andrew Lowey
A comprehensive and easy-to-follow guide to good practice in extemporaneous compounding. This book provides standards for extemporaneous dispensing, stability summaries for the 50 most commonly prepared extemporaneously prepared medicines in NHS hospitals.

978 0 85369 901 9 • £48.00 • 480 pages • 2010

FASTtrack: Pharmaceutical Compounding and Dispensing
Second Edition
Edited by Christopher A. Langley and Dawn Belcher
A student guide to the key dosage forms encountered in extemporaneous pharmaceutical compounding and dispensing. The book includes concise information, key points & tips and an important self-assessment section which includes MCQs, case studies, sample essay questions and worked examples.

978 0 85711 055 8 • £28.00 • 224 pages • 2012

Pharmaceutical Compounding and Dispensing
Second Edition
Edited by John F. Marriott, Keith A. Wilson, Christopher A. Langley and Dawn Belcher
This is a modern, detailed and practical guide to the theory and practice of extemporaneous compounding and dispensing. Fully revised and updated, this new edition will be an indispensable reference for pharmacy students and practicing pharmacists.

978 0 85369 912 5 • £43.00 • 304 pages • 2010
**Pharmacy in Public Health**
Edited by Janet Krska

This accessible and comprehensive book provides the thorough understanding of this discipline that will be needed for practising pharmacists and students to develop into effective public health practitioners.

978 0 85369 879 1 • £33.00 • 304 pages • 2010

---

**Social and Cognitive Pharmacy**
*Theory and Case Studies*
Edited by Parastou Donyai

A practical handbook for teaching and learning of sociology and psychology in pharmacy practice. Gives students and practitioners the understanding to apply psycho-social knowledge to everyday pharmacy issues.

978 0 85369 899 9 • £33.00 • 248 pages • 2012

---

**Hospital Pharmacy**
*Second Edition*
Edited by Martin Stephens

Hospital Pharmacy outlines the changes in pharmacy practice within the hospital setting and discusses the vast range of services that are provided. Each chapter is devoted to an area of pharmacy practice and discusses its history, current practice and future developments.

978 0 85369 900 2 • £35.00 • 352 pages • 2011
The Obesity Epidemic and its Management
Edited by Terry Maguire and David Haslam
Suitable for practicing pharmacists, this book helps in understanding, management and treatment of obesity. It focuses on the prevention of obesity including prevention on government level, psychological intervention and exercise and nutrition.

978 0 85369 786 2 • £38.00 • 288 pages • 2009

Healthcare Communication
Edited by Bruce Hugman
A practical training manual on communication and how to establish sound, professional, practical, rewarding relationships which can support effective therapy and enhance patient health and morale.

978 0 85369 749 7 • £33.00 • 320 pages • 2009

Foundation in Pharmacy Practice
Edited by Benjamin J. Whalley, Kate Fletcher, Samantha Weston, Rachel Howard and Clare F Rawlinson
Gives an introductory overview to pharmacy practice. This book is suitable for first year undergraduate students, providing a starting point for further study and is facilitated by regular signposting and referencing to specific texts.

978 0 85369 747 3 • £33.00 • 224 pages • 2008

Community Pharmacy Handbook
Edited by Jon Waterfield
A survival guide for community pharmacists. It offers answers to practical questions such as: How do I manage my own professional development? What is the best way of training my support staff? How do I motivate the pharmacy team?

978 0 85369 716 9 • £33.00 • 304 pages • 2008
Rules and Guidance for Pharmaceutical Distributors (Green Guide) 2017
Edited by MHRA

978 0 85711 286 6 • £72.00 • 360 pages • 2017

Rules and Guidance for Pharmaceutical Manufacturers and Distributors (Orange Guide) 2017
Edited by MHRA
Commonly known as the Orange Guide, it remains an essential reference for all manufacturers and distributors of medicines in Europe. It provides a single authoritative source of European and UK guidance, information and legislation relating to the manufacture and distribution of human medicines.

978 0 85711 285 9 • £82.00 • 816 pages • 2017

Dale and Appelbe’s Pharmacy and Medicines Law
Eleventh Edition
Edited by Joy Wingfield and Karen Pitchford
This 11th edition of Dale and Appelbe’s Pharmacy and Medicines Law is your guide to law and ethics for pharmacy practice in the UK. It covers law and professional regulation and is firmly established as the definitive student textbook and reference work on this subject in the UK. Fully updated to include changes to pharmacy laws and regulation.

978 0 85711 202 6 • £57.00 • 568 pages • 2017
**Medicines, Ethics and Practice**  
44 (July 2020)  
Edited by Royal Pharmaceutical Society

Medicines, Ethics and Practice is the Royal Pharmaceutical Society’s established professional guide for pharmacists. This 44th edition is a revised practical resource which helps pharmacists practice confidently and professionally. It embeds professionalism at the heart of decision-making processes and provides essential information, supporting the pharmacist in their day-to-day practice.

978 0 85711 404 4 • £55.00 • 224 pages • 2020

---

**FASTtrack: Law and Ethics in Pharmacy Practice**  
Edited by Ruth Rodgers, Catherine Dewsbury and Andrew Lea

This FASTtrack revision guide aims to cover key legislation affecting pharmacy and the pharmacist practitioner, including how laws are made, how they come into effect and are enforced.

978 0 85369 885 2 • £28.00 • 176 pages • 2010

---

**Pharmacy and Medicines Law in Ireland**  
Edited by Peter B. Weedle and Leonie Clarke

Opening with a detailed account of the historical development of Irish pharmacy and medicines law, this practical textbook covers all aspects of current pharmacy and medicines law in Ireland, including the landmark Pharmacy Act of 2007.

978 0 85369 882 1 • £40.00 • 384 pages • 2011
Palliative Care Formulary
Seventh Edition
Edited by Robert Twycross, Andrew Wilcock and Paul Howard

Palliative Care Formulary is an essential resource for clinicians who prescribe for patients with progressive end-stage disease. Although written primarily with cancer patients in mind it contains specific material relating to several other life-limiting diseases.

978 0 85711 368 9 • £59.95 • 920 pages • 2020

Introducing Palliative Care
Fifth Edition
Edited by Robert Twycross and Andrew Wilcock

Introducing Palliative Care is the ideal introductory text for training students in medicine and qualified healthcare professionals in the area of palliative care. The fifth edition covers the Association for Palliative Medicine of Great Britain and Ireland’s recommended curriculum for medical undergraduates.

978 0 85711 349 8 • £25.00 • 416 pages • 2018

Developing Your Prescribing Skills
Edited by Trudy Thomas

Developing Your Prescribing Skills helps practitioners and all new prescribers to assess their current skills, and recognise their skills gaps. It identifies ways to meet learning needs and be accountable for prescribing, both as individuals and teams.

978 0 85369 881 4 • £23.00 • 176 pages • 2010
**Non-medical Prescribing**  
Edited by Mahesh Sodha and Soraya Dhillon  
Presents an overview of non-medical prescribing by health professions other than doctors and covers the ethics, legal and patient safety framework.

978 0 85369 768 8 • £27.00 • 240 pages • 2009

**Nuclear Pharmacy**  
**Concepts and Applications in Nuclear Pharmacy**  
Edited by Blaine Templar Smith  
An accessible and comprehensive introduction to nuclear medicine with focus on the application of basic information.

978 0 85369 866 1 • £33.00 • 304 pages • 2010

**Sampson’s Textbook of Radiopharmacy**  
**Fourth Edition**  
Edited by Tony Theobald  
The fourth edition of this well-established text has been completely revised and updated to reflect developments in the science and practice of radiopharmacy that have taken place over the last ten years.

978 0 85369 789 3 • £81.00 • 744 pages • 2010

**Popular Medicines**  
**An Illustrated History**  
Edited by Peter Homan, Briony Hudson and Raymond C Rowe  
Fascinating historical details of 21 popular branded medicines are provided, some of which date back to the earliest proprietary medicines in the sixteenth century.

978 0 85369 728 2 • £22.00 • 192 pages • 2007
Basic Pharmacokinetics
Second Edition
Edited by Sunil S. Jambhekar and Philip J. Breen

Basic Pharmacokinetics provides an understanding of the principles of pharmacokinetics and biopharmaceutics and of how principles can be applied to achieve successful drug therapy.

978 0 85369 980 4 • £54.00 • 496 pages • 2012

FASTtrack: Pharmacology
Second Edition
Edited by Michael D. Randall, Dave Kendall and Stephen Alexander

Provides a brief account of drug action, as a study or revision aid. The authors have taken a therapeutic area and considered the major classes of drugs, their actions and, to a limited degree, their uses.

978 0 85711 057 2 • £28.00 • 288 pages • 2012

FASTtrack: Chemistry of Drugs
Edited by David Barlow and David Mountford

A revision guide on pharmaceutical and medicinal chemistry. The book covers all aspects of the chemistry of drugs and includes key points, tips, and self-assessment questions to aid in learning.

978 0 85711 083 1 • £28.00 • 272 pages • 2014
**Clinical Pharmacokinetics**  
Edited by Soraya Dhillon and Andrzej Kostrzewski  
A practical guide to the use of pharmacokinetic principles in clinical practice. Over 30 clinical cases with self-study questions and answers are presented throughout to bridge the gap between pharmacokinetic concepts and their practical application to individual patients.  

78 0 85369 571 4 • £33.00 • 280 pages • 2006

**Pharmaceutical Toxicology**  
Edited by Gerald J. Mulder and Lennart Dencker  
Covering areas of drug toxicity which address the major issues including registration requirements of new drugs and pharmacovigilance. The book provides an overview of the methodology and requirements of pre-clinical safety assessment of new medicines.  

978 0 85369 593 6 • £40.00 • 280 pages • 2006

**Clarke’s Analytical Forensic Toxicology**  
Second Edition  
Edited by Adam Negrusz and Gail Cooper  
This second edition of Clarke’s Analytical Forensic Toxicology offers a fresh perspective on the drugs and poisons that you are most likely to encounter in forensic toxicology, with a focus on collection, extraction and analysis.  

978 0 85711 054 1 • £65.00 • 656 pages • 2013

**Essentials of Pharmaceutical Chemistry**  
Fourth Edition  
Edited by Donald Cairns  
Essentials of Pharmaceutical Chemistry is an introduction to pharmaceutical chemistry for undergraduate pharmacy, chemistry and medicinal chemistry students. It covers all of the core material necessary to provide an understanding of the basic chemistry of drug molecules.  

978 0 85369 979 8 • £43.00 • 324 pages • 2012
FASTtrack: Physical Pharmacy
Third Edition
Edited by David Attwood and Alexander T. Florence

A revision guide for students giving bullet points of basic information on physical pharmacy. This text is derived from the textbook Physicochemical Principles of Pharmacy and is designed to be used alongside it for those revision periods when time is short.

978 0 85711 390 0 • £28.00 • 232 pages • 2020

FASTtrack: Pharmaceutics – Drug Delivery and Targeting
Second Edition
Edited by Yvonne Perrie and Thomas Rades

This FASTtrack book systematically reviews important concepts and facts relating to the delivery and targeting of drugs. Relevant examples of delivery systems are given throughout the book with a focus on delivery systems that have actually reached clinical reality.

978 0 85711 059 6 • £28.00 • 256 pages • 2012

FASTtrack: Pharmaceutics – Dosage Form and Design
Second Edition
Edited by David S. Jones

This revision guide for students delivers the essentials of dosage formulation in a concise and easy-to-use format. The book discusses an array of major dosage forms that are commonly encountered by pharmacists and information concerning the formulation of these dosage forms in a way that will aid your understanding and remove the complexities of the various topics.

978 0 85711 078 7 • £28.00 • 432 pages • 2016
**Biomedical and Pharmaceutical Polymers**

Edited by Denis Labarre, Gilles Ponchel and Christine Vauthier

Presents a review of polymer chemistry research and development in pharmaceutics giving insights and information into the rationale behind the use of such molecules, their physicochemical characteristics, synthetic routes, and practical examples of formulation design using these substances.

978 0 85369 730 5 • £38.00 • 176 pages • 2010

---

**Remington Education: Physical Pharmacy**

Edited by Blaine Templar Smith

Remington Education: Physical Pharmacy provides a simple, concise view of the concepts and applications of physical pharmacy. It is presented in an easy-to-understand structure, guiding students through each relevant component of physical pharmacy.

978 0 85711 106 7 • £38.00 • 192 pages • 2015

---

**Remington Education: Pharmaceutics**

Edited by Shelley Chambers Fox

This book covers the basic principles of pharmaceutics, from dosage forms to drug delivery and targeting. It addresses all the principles covered in an introductory pharmacy course.

978 0 85711 070 1 • £33.00 • 560 pages • 2014

---

**Physicochemical Principles of Pharmacy**

In Manufacture, Formulation and Clinical Use

Sixth Edition

Edited by Alexander T. Florence and David Attwood

This established textbook covers every aspect of drug properties from the design of dosage forms to their delivery by all routes to sites of action in the body.

978 0 85711 174 6 • £48.00 • 664 pages • 2015
pharmaceutical-journal.com platform is the home of *The Pharmaceutical Journal*, *Clinical Pharmacist*, *Tomorrow’s Pharmacist* and *Pharmaceutical Journal Jobs*.

The official journal of the Royal Pharmaceutical Society covers news, analysis, features, opinion, learning and careers articles, alongside peer reviewed research, perspectives, reviews and evidence-based CPD articles. It provides insight and knowledge about drugs, pharmacy practice, medicines use and healthcare policy in the context of the pharmacy profession and pharmaceutical sciences.

The international audience of Pharmaceutical Journal Publications includes pharmacists, pharmaceutical scientists and healthcare professionals. Articles have been engineered specifically to meet the requirements of the target audience, and the structure is designed to reflect this.
This editorial unit works with commercial partners, media and communications agencies to champion commercial brand stories across our platforms. The PJ Content Studio builds on our extensive experience of commercial publishing across pharmacy and pharmaceutical sciences and offers solutions including print-based advertorials and whitepapers, as well as multimedia solutions, including podcasts and videos.

"Tomorrow's Pharmacist" provides insight into the realities of a career in the pharmaceutical sciences. It is a valuable resource for pharmacy students, preregistration trainees, and young pharmacists.
