Welcome to the Pharmaceutical Press 2018 catalogue

The Royal Pharmaceutical Society has been publishing information for pharmacists since 1841, and today Pharmaceutical Press has more than 150 titles in its comprehensive range of print and digital resources.

Along with world-renowned works such as the British National Formulary (BNF), Martindale and Stockley’s Drug Interactions we also publish a range of other reference works, textbooks and professional titles, available online via MedicinesComplete and in print.

A busy year in 2017 for Pharmaceutical Press saw several new editions of major reference works, including Martindale: The Complete Drug Reference and Handbook of Pharmaceutical Excipients. We also saw the successful launch of the new BNF app which now contains the BNF for Children.

In 2018 look out for:

• The new FormularyComplete, the flexible formulary management tool which utilises the enhanced BNF structure

• Prescribing Medicines for Children – supported by GRiP (Global Research in Paediatrics), this title compliments the BNFC, that promotes safe paediatric prescribing

• Pharmacy Registration Assessment Questions 2 – the ultimate Pharmacy revision guide for students

Turn to page 6 to find out more about the new MedicinesComplete, our evidence-based online platform. It gives you immediate online access to up-to-date drug information, sourced from a range of the world’s most trusted resources. See how it can help you in your work.

An online version of this catalogue is available at www.pharmpress.com/catalogue, with further individual resource details at www.pharmpress.com.

We always welcome your feedback – please let us know what you think at pharmpress@rpharms.com.

Best wishes,

Alina Lourie

Managing Director, Pharmaceutical Press
Pharmaceutical Press is the publishing division of the Royal Pharmaceutical Society. We produce a wide range of digital and print products including reference works, textbooks, professional titles and subscription products.

These include the British National Formulary, published in conjunction with the BMJ Group, and a range of titles on MedicinesComplete, our internationally recognised online subscription service. Pharmaceutical Journal Publications publishes high quality professional magazines, and Pharmaceutical Journal Online provides access to online content and daily news updates.

While developing existing brands such as Martindale, Stockley’s Drug Interactions and Pharmaceutical Excipients, Pharmaceutical Press continues to launch new products and embrace all appropriate media in order to respond to our customers’ needs.

Inspection Copies
Inspection copies of Pharmaceutical Press textbooks are available to lecturers who are considering the book as a recommended core text. For further information, visit www.pharmpress.com/inspectioncopies

Bulk Sales
Multiple copies of Pharmaceutical Press books are available at discounted rates. For further information or to discuss additional sales requirements, please email pharmpress-support@rpharms.com and include Bulk Sales in the subject line.

eBooks
Many Pharmaceutical Press titles are also available as eBooks on the following platforms: Amazon through Kindle, Apple through the iBookstore, Dawsons, EBL, Ebooks.com, EBSCO and MyiLibrary. For further details, see page 60.

Introduction to Pharmaceutical Calculations
Fourth edition
By Judith A. Rees, By Ian Smith, By Jennie Watson
Introduction to Pharmaceutical Calculations is an essential study aid for pharmacy students. The book contains worked examples and sample questions and answers.

Drugs in Use
Case Studies for Pharmacists and Prescribers
Fifth edition
Edited by Linda J. Dodds
Drugs in Use: Case Studies for Pharmacists and Prescribers helps you to bridge the gap between theoretical knowledge about medicines and the practical application to your patients.

Biological Therapeutics
By Daniel A. Brook, By Ben Greenstein
An introduction to the treatment of disease using biological medicines derived from living plant and animal tissues.
An Introduction to Clinical Pharmaceutics
By Alexander T. Florence

Considers the importance of pharmaceutics and pharmaceutical dosage form design by considering the clinical use of modern drugs. This book also considers the use and behaviour of dosage forms in different age groups and patient groups along with developments such as personalised therapies and genomics.

978 0 85369 691 9 • £27.00 • Paperback • 208 pages • 2010 •

Conducting Your Pharmacy Practice Research Project
A Step-by-Step Guide
Second edition
By Felicity J. Smith

This clear and concise handbook considers the stages of the research process in logical order, from planning of the project through to dissemination of the findings.

978 0 85369 869 2 • £26.00 • Paperback • 240 pages • 2010 •

MCQs in Pharmaceutical Calculations
By Ryan F. Donnelly, By Johanne Barry

MCQs in Pharmaceutical Calculations aims to help pre-registration trainees and pharmacy students with their revision enabling them to perform calculations accurately and with confidence.

978 0 85369 836 4 • £24.00 • Paperback • 224 pages • 2009 •
MCQs in Pharmacy Practice
Concepts and Applications in Nuclear Pharmacy
Second edition
Edited by Lilian M. Azzopardi
Covers topics featured in pharmacy undergraduate registration and licensing multiple choice examinations. This book covers common general pharmacy practice interventions and operations and other topics commonly featured in examinations such as simple pharmaceutical calculations, doses, strengths, nomenclature, abbreviations and dosage forms.

978 0 85369 839 5 • £25.00 • Paperback • 464 pages • 2009 •

MCQs in Clinical Pharmacy
The Collection of the Museum of the Royal Pharmaceutical Society of Great Britain
Edited by Lilian M. Azzopardi
A revision aid for those preparing for multiple choice questions in clinical pharmacy. This textbook contains questions that are practice-oriented to assess students' knowledge of clinical issues, evaluative and analytical skills, and ability to apply their knowledge in clinical practice.

978 0 85369 666 7 • £25.00 • Paperback • 304 pages • 2007 •

Pharmacy Registration Assessment Questions 2
First edition
Edited by Nadia Bukhari
Pharmacy Registration Assessment Questions 2 features more than 400 entirely new, closed book and calculation questions in line with current GPhC guidance. This revision aid gives you the opportunity to practice a variety of question styles found in the assessment including single best answer questions, extended matching questions and calculations.

978 0 85711 326 9 • £35.00 • Paperback • 224 pages • 2018 •
Pharmacy Registration Assessment Questions
An Illustrated History
Second edition
Edited by Nadia Bukhari, Contributions by Oksana Pyzik,
Contributions by Ryan Hamilton, Contributions by Amar
Iqbal, Contributions by Babir Malik
Pharmacy Registration Assessment Questions is developed
around the current GPhC registration exam. Comprising of
400 questions, the book covers all sections such as B05,
EMQ, Classification, and Calculations, which will allow
students to practice questions in the new format before
the examinations. All questions are based on BNF72.

978 0 85711 278 1 • £33.00 • Paperback • 216 pages • 2017 •

Complementary and Alternative Medicine
Second edition
By Steven B. Kayne

Complementary medical treatments are popular. This book provides a practical introduction and reference source on the products frequently requested in community pharmacies and in hospitals. It features chapters on complementary therapies such as massage.

Dietary Supplements Pocket Companion
By Pamela Mason

Dietary Supplements Pocket Companion provides busy healthcare professionals with a small and conveniently sized quick reference text. It draws on the wealth of evidence-based information on the most commonly used dietary supplements presented in the full reference work Dietary Supplements.

Nutraceuticals
A Guide for Healthcare Professionals
Second edition
By Brian Lockwood

This authoritative book assesses the medical and scientific evidence for the use of nutraceuticals for prevention or treating important disease states. It will be of value to practising pharmacists, other healthcare professionals and complementary medicine practitioners.
FASTtrack: Complementary and Alternative Medicine
By Steven B. Kayne
A guide for undergraduate pharmacy students that gives bullet points of basic information on therapeutics. It focuses on what pharmacy students need to know in order to pass exams, providing bulleted information, key points, tips and a self-assessment section which includes MCQs, case studies, sample essay questions, and worked examples.

Pharmacy and the US Health Care System
Fourth edition
Edited by Michael Ira Smith, Edited by Albert I. Wertheimer, Edited by Jack E. Fincham
Pharmacy and the US Health Care System offers a complete source of current information about the features of the US health care system including the personnel and institutions, as well as concise reports on trends, regulations, policy and finances.
Quality Assurance of Aseptic Preparation Services: Standards Handbook
Fifth edition
Edited by Alison M. Beaney
Quality Assurance of Aseptic Preparation Services Standards Handbook (also known as the Yellow Guide) provides standards for unlicensed aseptic preparation in the UK, as well as practical information to aid implementation of the standards.

Handbook of Extemporaneous Preparation
A Guide to Pharmaceutical Compounding
By Mark Jackson, By Andrew Lowey
A comprehensive and easy-to-follow guide to good practice in extemporaneous compounding.

FASTtrack: Pharmaceutical Compounding and Dispensing
Second edition
By Christopher A. Langley, By Dawn Belcher
A student guide to the key dosage forms encountered in extemporaneous pharmaceutical compounding and dispensing.
Prescribing Medicines for Children
First edition
Edited by Mike Sharland, Edited by Mark Turner, Edited by Charlotte Barker

Prescribing for children is a particularly challenging discipline due to specific issues of drug absorption, metabolism, distribution and excretion. The aim of this book is to improve understanding in all aspects of paediatric prescribing, from the development of suitable drugs through to their practical administration.

Pharmaceutical Compounding and Dispensing
Second edition
By John F. Marriott, By Keith A. Wilson, By Christopher A. Langley, By Dawn Belcher

This is a modern, detailed and practical guide to the theory and practice of extemporaneous compounding and dispensing. Fully revised and updated, this new edition will be an indispensable reference for pharmacy students and practicing pharmacists.
The Obesity Epidemic and its Management
Seventy-fifth edition
By Terry Maguire, By David Haslam

Suitable for practicing pharmacists, this book helps in understanding, management and treatment of Obesity. It focuses on the prevention of obesity including prevention on government level, psychological intervention and exercise and nutrition.

978 0 85369 786 2 • £38.00 • Paperback • 288 pages • 2009 • 

Pharmacy in Public Health
Edited by Janet Krska

This accessible and comprehensive book provides the thorough understanding of this discipline that will be needed for practising pharmacists and students to develop into effective public health practitioners.

978 0 85369 879 1 • £33.00 • Paperback • 304 pages • 2010 •

Social and Cognitive Pharmacy
Theory and Case Studies
Fourth edition
By Parastou Donyai

A practical handbook for teaching and learning of sociology and psychology in pharmacy practice. Gives students and practitioners the understanding to apply psycho-social knowledge to everyday pharmacy issues.

978 0 85369 899 9 • £33.00 • Paperback • 248 pages • 2012 •
**Healthcare Communication**  
By Bruce Hugman  
A practical training manual on communication and how to establish sound, professional, practical, rewarding relationships which can support effective therapy and enhance patient health and morale. It contains chapters on effective communication and developing communication skills.

978 0 85369 749 7 • £33.00 • Paperback • 320 pages • 2009 •  

**Foundation in Pharmacy Practice**  
A Guide to the Interactions of Herbal Medicines  
Second edition  
By Benjamin J. Whalley, By Kate Fletcher, By Samantha Weston, By Rachel Howard, By Clare F Rawlinson  
Gives an introductory overview to pharmacy practice. This book is suitable for first year undergraduate students, providing a starting point for further study and is facilitated by regular signposting and referencing to specific texts. It also includes an easily navigated glossary of reference terms.

978 0 85369 747 3 • £33.00 • Paperback • 224 pages • 2008 •
**Hospital Pharmacy**

A Source Book of Interactions, Their Mechanisms, Clinical Importance and Management

Second edition

By Martin Stephens

Hospital Pharmacy outlines the changes in pharmacy practice within the hospital setting and discusses the vast range of services that are provided. Each chapter is devoted to an area of pharmacy practice and discusses its history, current practice and future developments.

978 0 85369 902 2 • £35.00 • Paperback • 352 pages • 2011 •

---

**Community Pharmacy Handbook**

For Community Practitioners

By Jon Waterfield

A survival guide for community pharmacists. It offers answers to practical questions such as: How do I manage my own professional development? What is the best way of training my support staff? How do I motivate the pharmacy team? What are the practical issues in setting up an MUR service?

978 0 85369 716 9 • £33.00 • Paperback • 304 pages • 2008 •
Rules and Guidance for Pharmaceutical Distributors (Green Guide) 2017
By MHRA

Dale and Appelbe's Pharmacy and Medicines Law
Eleventh edition
Edited by Joy Wingfield, Edited by Karen Pitchford

This 11th edition of Dale and Appelbe's Pharmacy and Medicines Law is your guide to law and ethics for pharmacy practice in the UK. It covers law and professional regulation and is firmly established as the definitive student textbook and reference work on this subject in the UK. Fully updated to include changes to pharmacy laws and regulation.

Medicines, Ethics and Practice
The professional guide for pharmacists
Forty-first edition
By Royal Pharmaceutical Society

Medicines, Ethics and Practice: The professional guide for pharmacists is the Royal Pharmaceutical Society's established professional guide for pharmacists.
Medicines, Ethics and Practice
The Professional Guide for Pharmacists
Fortieth edition
By Royal Pharmaceutical Society

Medicines, Ethics and Practice: The professional guide for pharmacists is the Royal Pharmaceutical Society’s established professional guide for pharmacists.

978 0 85711 296 5 • £55.00 • Paperback • 172 pages • 2016

FASTtrack: Law and Ethics in Pharmacy Practice
By Ruth Rodgers, By Catherine Dewsbury, By Andrew Lea

This FASTtrack revision guide aims to cover key legislation affecting pharmacy and the pharmacist practitioner, including how laws are made, how they come into effect and are enforced.

978 0 85369 885 2 • £25.00 • Paperback • 176 pages • 2010

Pharmacy and Medicines Law in Ireland
Edited by Peter B. Weedle, Edited by Leonie Clarke

Opening with a detailed account of the historical development of Irish pharmacy and medicines law, this practical textbook covers all aspects of current pharmacy and medicines law in Ireland, including the landmark Pharmacy Act of 2007.

978 0 85369 882 1 • £40.00 • Paperback • 384 pages • 2011
**Developing Your Prescribing Skills**

A Step-by-Step Guide  
Second edition  
Edited by Trudy Thomas  

Developing Your Prescribing Skills helps practitioners and all new prescribers to assess their current skills, and recognise their skills gaps. It identifies ways to meet learning needs and be accountable for prescribing, both as individuals and teams.

978 0 85369 881 4 • £23.00 • Paperback • 176 pages • 2010 • 📚 📖

---

**Non-medical Prescribing**

Edited by Mahesh Sodha, Edited by Soraya Dhillon  

Presents an overview of non-medical prescribing by health professions other than doctors and covers the ethics, legal and patient safety framework. This book includes background information on history, competencies needed (includes RPSGB guidelines) and the moral aspects of prescribing.

978 0 85369 768 8 • £27.00 • Paperback • 240 pages • 2009 • 📚 📖

---

**Nuclear Pharmacy**

Concepts and Applications in Nuclear Pharmacy  
Second edition  
Edited by Blaine Templar Smith  

An accessible and comprehensive introduction to nuclear medicine with focus on the application of basic information.

978 0 85369 866 1 • £33.00 • Paperback • 304 pages • 2010 • 📚 📖
## English Delftware Drug Jars

The Collection of the Museum of the Royal Pharmaceutical Society of Great Britain

Edited by Briony Hudson

This beautiful book contains the first ever comprehensive survey and catalogue of the collection of English delftware drug jars held in the Museum of the Royal Pharmaceutical Society of Great Britain. The book also includes details of tin-glazed barbers' bowls, pill tiles and posset pots in the collections.

978 0 85369 643 8 • £54.00 • Hardback • 272 pages • 2006 •

## Sampson's Textbook of Radiopharmacy

Fourth edition

Edited by Tony Theobald

The fourth edition of this well-established text has been completely revised and updated to reflect developments in the science and practice of radiopharmacy that have taken place over the last ten years.

978 0 85369 789 3 • £81.00 • Hardback • 744 pages • 2010 •

## Popular Medicines

An Illustrated History

Second edition

By Peter Homan, By Briony Hudson, By Raymond C Rowe

Fascinating historical details of 21 popular branded medicines are provided, some of which date back to the earliest proprietary medicines in the sixteenth century.

978 0 85369 728 2 • £22.00 • Paperback • 192 pages • 2007 •
**Clinical Pharmacokinetics**

Second edition
Edited by Soraya Dhillon, Edited by Andrzej Kostrzewski

A practical guide to the use of pharmacokinetic principles in clinical practice. Over 30 clinical cases with self-study questions and answers are presented throughout to bridge the gap between pharmacokinetic concepts and their practical application to individual patients.

978 0 85369 571 4 • £33.00 • Paperback • 280 pages • 2006 •

**Pharmaceutical Toxicology**

A Basis for Clinical Pharmacy Practice
Third edition
Edited by Gerald J. Mulder, Edited by Lennart Dencker

Covering areas of drug toxicity which address the major issues including registration requirements of new drugs and pharmacovigilance, this book provides an overview of the methodology and requirements of pre-clinical safety assessment of new medicines. It discusses mechanisms by which drugs cause toxic effects in living organisms.

978 0 85369 593 6 • £40.00 • Paperback • 280 pages • 2006 •

**Clarke's Analytical Forensic Toxicology**

Second edition
Edited by Adam Negrusz, Edited by Gail Cooper

This second edition of Clarke's Analytical Forensic Toxicology offers a fresh perspective on the drugs and poisons that you are most likely to encounter in forensic toxicology, with a focus on collection, extraction and analysis.

978 0 85711 054 1 • £65.00 • Paperback • 656 pages • 2013 •
Essentials of Pharmaceutical Chemistry
Fourth edition
Edited by Donald Cairns

Essentials of Pharmaceutical Chemistry is an introduction to pharmaceutical chemistry for undergraduate pharmacy, chemistry and medicinal chemistry students. It covers all of the core material necessary to provide an understanding of the basic chemistry of drug molecules.

Basic Pharmacokinetics
Second edition
By Sunil S. Jambhekar, By Philip J. Breen

Basic Pharmacokinetics provides an understanding of the principles of pharmacokinetics and biopharmaceutics and of how these principles can be applied to achieve successful drug therapy.

FASTtrack: Pharmacology
Second edition
By Michael D. Randall, By Dave Kendall, By Stephen Alexander

Provides a brief account of drug action, as a study or revision aid. The authors have taken a therapeutic area and considered the major classes of drugs, their actions and, to a limited degree, their uses.
FASTtrack: Chemistry of Drugs
Fourth edition
By David Barlow, By David Mountford
A revision guide on pharmaceutical and medicinal chemistry. The book covers all aspects of the chemistry of drugs and includes key points, tips, and self-assessment questions to aid in learning.

FASTtrack: Pharmaceutics - Drug Delivery and Targeting
Drug Delivery and Targeting
Second edition
By Yvonne Perrie, By Thomas Rades
This FASTtrack book systematically reviews important concepts and facts relating to the delivery and targeting of drugs. Relevant examples of delivery systems are given throughout the book with a focus on delivery systems that have actually reached clinical reality.

FASTtrack: Physical Pharmacy
A Basis for Clinical Pharmacy Practice
Second edition
By David Attwood, By Alexander T. Florence
A revision guide for students giving bullet points of basic information on physical pharmacy. This text is derived from the textbook Physicochemical Principles of Pharmacy and is designed to be used alongside it for those revision periods when time is short.
Remington Education: Physical Pharmacy

Physical Pharmacy
By Blaine Templar Smith

Remington Education: Physical Pharmacy provides a simple, concise view of the concepts and applications of physical pharmacy.

978 0 85711 106 7 • £38.00 • Paperback • 192 pages • 2015 •

FASTtrack: Pharmaceutics - Dosage Form and Design

Second edition
By David S. Jones

This revision guide for students delivers the essentials of dosage formulation in a concise and easy-to-use format.

978 0 85711 078 7 • £25.00 • Paperback • 432 pages • 2016 •

Biomedical and Pharmaceutical Polymers

By Denis Labarre, By Gilles Ponchel, By Christine Vauthier

Presents a review of polymer chemistry research and development in pharmaceutics giving insights and information into the rationale behind the use of such molecules, their physicochemical characteristics, synthetic routes, and practical examples of formulation design using these substances.

978 0 85369 730 5 • £38.00 • Paperback • 176 pages • 2010 •
Remington Education: Pharmaceutics
By Shelley Chambers Fox

Remington Education: Pharmaceutics covers the basic principles of pharmaceutics, from dosage forms to drug delivery and targeting. It addresses all the principles covered in an introductory pharmacy course. As well as offering a summary of key information in pharmaceutics, it offers numerous case studies and MCQs for self assessment.

Physicochemical Principles of Pharmacy
In Manufacture, Formulation and Clinical Use
Sixth edition
By Alexander T. Florence, By David Attwood

This established textbook covers every aspect of drug properties from the design of dosage forms to their delivery by all routes to sites of action in the body.
The official journal of the Royal Pharmaceutical Society covers news, analysis, features, opinion, learning and careers articles. It provides insight and knowledge about drugs, pharmacy practice, medicines use and healthcare policy in the context of the pharmacy profession and pharmaceutical sciences.

Clinical Pharmacist
This monthly, peer-reviewed journal provides authoritative resources on the clinical management of disease in relation to medicines and up-to-date information about advances in pharmacy and drug development. Clinical Pharmacist publishes review articles, perspectives, evidence-based CPD articles and practice reports on topics from drug discovery to clinical pharmacology and pharmacy.

Tomorrow’s Pharmacist
Tomorrow’s Pharmacist provides insight into the realities of a career in the pharmaceutical sciences. It is a valuable resource for pharmacy students, preregistration trainees, and young pharmacists.

The international audience of Pharmaceutical Journal Publications includes pharmacists, pharmaceutical scientists and healthcare professionals. Articles have been engineered specifically to meet the requirements of the target audience, and the structure is designed to reflect this.
