The Royal Pharmaceutical Society has been publishing information for pharmacists since 1841, and today Pharmaceutical Press has more than 150 titles in its comprehensive range of print and digital resources.

Along with world-renowned works such as the British National Formulary (BNF), Martindale and Stockley’s Drug Interactions we also publish a range of other reference works, textbooks and professional titles, available online via MedicinesComplete and in print.

2018 saw some key developments for Pharmaceutical Press particularly in online resources with an updated FormularyComplete platform powered by BNF content. The year also saw the launch of Martindale’s ADR Checker, designed to provide clinical support when dealing with patients who face adverse drug reactions.

In 2019 look out for:

• *Palliative Care Formulary* – the expert source of drug information for health professionals caring for patients facing progressive life-limiting diseases.

• *Prescribing Medicines for Children* – supported by GRiP (Global Research in Paediatrics), this title compliments the BNF for Children and promotes safe paediatric prescribing.

Turn to page 6 to discover all things MedicinesComplete, helping you make the best clinical decisions. It gives you instant online access to up-to-date drug information, sourced from a range of the world’s most trusted resources.

An online version of this catalogue is available at [www.pharmpress.com/catalogue](http://www.pharmpress.com/catalogue), with further individual resource details at [www.pharmpress.com](http://www.pharmpress.com).

We always welcome your feedback – please let us know what you think at pharmpress@rpharms.com.

Best wishes,

Karen Baxter
Managing Director, Pharmaceutical Press
Pharmaceutical Press is the publishing division of the Royal Pharmaceutical Society. We produce a wide range of digital and print products including reference works, textbooks, professional titles and subscription products.

These include the British National Formulary, published in conjunction with the BMJ Group, and a range of titles on MedicinesComplete, our internationally recognised online subscription service. Pharmaceutical Journal Publications publishes high quality professional magazines, and Pharmaceutical Journal Online provides access to online content and daily news updates.

While developing existing brands such as Martindale, Stockley’s Drug Interactions and Pharmaceutical Excipients, Pharmaceutical Press continues to launch new products and embrace all appropriate media in order to respond to our customers’ needs.

**Inspection Copies**

Inspection copies of Pharmaceutical Press textbooks are available to lecturers who are considering the book as a recommended core text. For further information, visit [www.pharmpress.com/inspectioncopies](http://www.pharmpress.com/inspectioncopies)

**Bulk Sales**

Multiple copies of Pharmaceutical Press books are available at discounted rates. For further information or to discuss additional sales requirements, please email pharmpress-support@rpharms.com and include Bulk Sales in the subject line.

**eBooks**

Many Pharmaceutical Press titles are also available as eBooks on the following platforms: Amazon through Kindle, Apple through the iBookstore, Dawsons, EBL, Ebooks.com, EBSCO and MyiLibrary. For further details, see page 60.

**Copyright**

Application and Review of Pediatric Pharmacotherapy
Second edition
By Mark L. Glover
Increase your understanding of pharmacotherapy prescribed to pediatric patients with these realistic case studies.

Pathology and Therapeutics for Pharmacists
A Basis for Clinical Pharmacy Practice
Third edition
By Russell J. Greene, By Norman D. Harris
A textbook for undergraduate pharmacists which takes an integrated approach to the pathophysiological and pharmacotherapeutic principles underlying the treatment of disease. It reflects advances in therapeutic practice and in the understanding of many disease states.

Integrated Pharmacy Case Studies
By Sally-Anne Francis, By Felicity J. Smith, By John Malkinson, By Andrew Constanti, By Kevin Taylor
This innovative new textbook is one of the first to integrate the science of pharmacy with practice. Integrated Pharmacy Case Studies provides a case study approach to pharmacy education, demonstrating in the most practical way possible the relevance of pharmaceutical science in practice.
**FASTtrack: Applied Pharmaceutical Practice**  
*Second edition*  
By Christopher A. Langley, By Dawn Belcher  
Guides the student pharmacist or pharmacy technician through the main stages involved in pharmaceutical dispensing. This reference text accompanies the compulsory dispensing courses found in all undergraduate MPharm programmes and equivalent technical training courses.

978 0 85711 056 5 • £25.00 • Paperback • 208 pages • 2012 •

**Pharmacy Case Studies**  
Edited by Soraya Dhillon, Edited by Rebekah Raymond  
Helps students to take an integral approach to pharmacy via a series of pharmacy cases. This book tests knowledge gained within the individual areas of law and ethics, pharmaceutics, pharmacology and pathology by examples, bringing together various areas taught on the degree course.

978 0 85369 724 4 • £33.00 • Paperback • 480 pages • 2009 •

**Applied Pharmaceutical Practice**  
By Christopher A. Langley, By Dawn Belcher  
Designed to guide student pharmacists or pharmacy technicians through the main stages involved in pharmaceutical dispensing, this title provides students with a core reference text to accompany the compulsory dispensing course found in undergraduate programmes, explaining the key concepts behind the processes involved in pharmaceutical dispensing.

978 0 85369 746 6 • £33.00 • Paperback • 304 pages • 2008 •
Introduction to Pharmaceutical Calculations
Fourth edition
By Judith A. Rees, By Ian Smith, By Jennie Watson

Introduction to Pharmaceutical Calculations is an essential study aid for pharmacy students. The book contains worked examples and sample questions and answers.

Drugs in Use
Case Studies for Pharmacists and Prescribers
Fifth edition
Edited by Linda J. Dodds

Drugs in Use: Case Studies for Pharmacists and Prescribers helps you to bridge the gap between theoretical knowledge about medicines and the practical application to your patients.

Biological Therapeutics
By Daniel A. Brook, By Ben Greenstein

An introduction to the treatment of disease using biological medicines derived from living plant and animal tissues.
An Introduction to Clinical Pharmaceutics
By Alexander T. Florence

Considers the importance of pharmaceutics and pharmaceutical dosage form design by considering the clinical use of modern drugs. This book also considers the use and behaviour of dosage forms in different age groups and patient groups along with developments such as personalised therapies and genomics.

Pharmacy Registration Assessment Questions 3
First edition
Edited by Nadia Bukhari

Pharmacy Registration Assessment Questions 3 features more than 400 entirely new, closed book and calculation questions in line with current GPhC guidance. This revision aid gives you the opportunity to practice a variety of question styles found in the assessment including single best answer questions, extended matching questions and calculations.

Conducting Your Pharmacy Practice Research Project
A Step-by-Step Guide
Second edition
By Felicity J. Smith

This clear and concise handbook considers the stages of the research process in logical order, from planning of the project through to dissemination of the findings.
**MCQs in Pharmaceutical Calculations**
By Ryan F. Donnelly, By Johanne Barry

MCQs in Pharmaceutical Calculations aims to help pre-registration trainees and pharmacy students with their revision enabling them to perform calculations accurately and with confidence.

978 0 85369 836 4 • £24.00 • Paperback • 224 pages • 2009 •

---

The Obesity Epidemic and its Management

By Terry Maguire, By David Haslam

Suitable for practicing pharmacists, this book helps in understanding, management and treatment of Obesity. It focuses on the prevention of obesity including prevention on government level, psychological intervention and exercise and nutrition.

Pharmacy in Public Health

Edited by Janet Kriska

This accessible and comprehensive book provides the thorough understanding of this discipline that will be needed for practising pharmacists and students to develop into effective public health practitioners.

Social and Cognitive Pharmacy

Theory and Case Studies

By Parastou Donyai

A practical handbook for teaching and learning of sociology and psychology in pharmacy practice. Gives students and practitioners the understanding to apply psycho-social knowledge to everyday pharmacy issues.

Community Pharmacy Handbook

By Jon Waterfield

A survival guide for community pharmacists. It offers answers to practical questions such as: How do I manage my own professional development? What is the best way of training my support staff? How do I motivate the pharmacy team? What are the practical issues in setting up an MUR service?

Rules and Guidance for Pharmaceutical Distributors (Green Guide) 2017

By MHRA

Dale and Appelbe’s Pharmacy and Medicines Law

Eleventh edition

Edited by Joy Wingfield, Edited by Karen Pitchford

This 11th edition of Dale and Appelbe’s Pharmacy and Medicines Law is your guide to law and ethics for pharmacy practice in the UK. It covers law and professional regulation and is firmly established as the definitive student textbook and reference work on this subject in the UK. Fully updated to include changes to pharmacy laws and regulation.
**Medicines, Ethics and Practice**

42 (July 2018)

By Royal Pharmaceutical Society

Medicines, Ethics and Practice is the Royal Pharmaceutical Society’s established professional guide for pharmacists. This 42nd edition is a revised practical resource which helps pharmacists practice confidently and professionally. It embeds professionalism at the heart of decision-making processes and provides essential information, supporting the pharmacist in their day-to-day practice.

978 0 85711 345 0 • £55.00 • Paperback • Extent tbc • 2018 •

**FASTtrack: Law and Ethics in Pharmacy Practice**

By Ruth Rodgers, By Catherine Dewsbury, By Andrew Lea

This FASTtrack revision guide aims to cover key legislation affecting pharmacy and the pharmacist practitioner, including how laws are made, how they come into effect and are enforced.

978 0 85369 885 2 • £25.00 • Paperback • 176 pages • 2010 •

**Pharmacy and Medicines Law in Ireland**

Edited by Peter B. Weedle, Edited by Leonie Clarke

Opening with a detailed account of the historical development of Irish pharmacy and medicines law, this practical textbook covers all aspects of current pharmacy and medicines law in Ireland, including the landmark Pharmacy Act of 2007.

978 0 85369 882 1 • £40.00 • Paperback • 384 pages • 2011 •
Palliative Care Formulary
Sixth edition
By Robert Twycross, By Andrew Wilcock, By Paul Howard

Palliative Care Formulary is an essential resource for clinicians who prescribe for patients with progressive end-stage disease. Although written primarily with cancer patients in mind it contains specific material relating to several other life-limiting diseases.

978 0 85711 348 1 • £55.00 • Paperback • 920 pages • 2018 •

Introducing Palliative Care
Fifth edition
By Robert Twycross, By Andrew Wilcock

Introducing Palliative Care is the ideal introductory text for training students in medicine and qualified healthcare professionals in the area of palliative care. The fifth edition covers the Association for Palliative Medicine of Great Britain and Ireland’s recommended curriculum for medical undergraduates.

978 0 85711 349 8 • £25.00 • Paperback • 416 pages • 2018 •

Developing Your Prescribing Skills
Edited by Trudy Thomas

Developing Your Prescribing Skills helps practitioners and all new prescribers to assess their current skills, and recognise their skills gaps. It identifies ways to meet learning needs and be accountable for prescribing, both as individuals and teams.

978 0 85369 881 4 • £23.00 • Paperback • 176 pages • 2010 •
Non-medical Prescribing
Edited by Mahesh Sodha, Edited by Soraya Dhillon

Presents an overview of non-medical prescribing by health professions other than doctors and covers the ethics, legal and patient safety framework. This book includes background information on history, competencies needed (includes RPSGB guidelines) and the moral aspects of prescribing.

978 0 85369 768 8 • £27.00 • Paperback • 240 pages • 2009 •

Nuclear Pharmacy
Concepts and Applications in Nuclear Pharmacy
Edited by Blaine Templar Smith

An accessible and comprehensive introduction to nuclear medicine with focus on the application of basic information.

978 0 85369 866 1 • £33.00 • Paperback • 304 pages • 2010 •

English Delftware Drug Jars
The Collection of the Museum of the Royal Pharmaceutical Society of Great Britain
Edited by Briony Hudson

This beautiful book contains the first ever comprehensive survey and catalogue of the collection of English delftware drug jars held in the Museum of the Royal Pharmaceutical Society of Great Britain. The book also includes details of tin-glazed barbers' bowls, pill tiles and posset pots in the collections.

978 0 85369 643 8 • £54.00 • Hardback • 272 pages • 2006 •
Popular Medicines
An Illustrated History
By Peter Homan, By Briony Hudson, By Raymond C Rowe

Fascinating historical details of 21 popular branded medicines are provided, some of which date back to the earliest proprietary medicines in the sixteenth century.

978 0 85369 728 2 • £22.00 • Paperback • 192 pages • 2007 •

Sampson's Textbook of Radiopharmacy
Fourth edition
Edited by Tony Theobald

The fourth edition of this well-established text has been completely revised and updated to reflect developments in the science and practice of radiopharmacy that have taken place over the last ten years.

978 0 85369 789 3 • £81.00 • Hardback • 744 pages • 2010 •
Clinical Pharmacokinetics
Edited by Soraya Dhillon, Edited by Andrzej Kostrzewski

A practical guide to the use of pharmacokinetic principles in clinical practice. Over 30 clinical cases with self-study questions and answers are presented throughout to bridge the gap between pharmacokinetic concepts and their practical application to individual patients.

Pharmaceutical Toxicology
Edited by Gerald J. Mulder, Edited by Lennart Dencker

Covering areas of drug toxicity which address the major issues including registration requirements of new drugs and pharmacovigilance, this book provides an overview of the methodology and requirements of pre-clinical safety assessment of new medicines. It discusses mechanisms by which drugs cause toxic effects in living organisms.

Clarke's Analytical Forensic Toxicology
Second edition
Edited by Adam Negrusz, Edited by Gail Cooper

This second edition of Clarke's Analytical Forensic Toxicology offers a fresh perspective on the drugs and poisons that you are most likely to encounter in forensic toxicology, with a focus on collection, extraction and analysis.
Essentials of Pharmaceutical Chemistry

Fourth edition
Edited by Donald Cairns

Essentials of Pharmaceutical Chemistry is an introduction to pharmaceutical chemistry for undergraduate pharmacy, chemistry and medicinal chemistry students. It covers all of the core material necessary to provide an understanding of the basic chemistry of drug molecules.

978 0 85369 979 8 • £43.00 • Paperback • 324 pages • 2012 •

Basic Pharmacokinetics

Second edition
By Sunil S. Jambhekar, By Philip J. Breen

Basic Pharmacokinetics provides an understanding of the principles of pharmacokinetics and biopharmaceutics and of how principles can be applied to achieve successful drug therapy.

978 0 85369 980 4 • £54.00 • Paperback • 496 pages • 2012 •

FASTtrack: Pharmacology

Second edition
By Michael D. Randall, By Dave Kendall, By Stephen Alexander

Provides a brief account of drug action, as a study or revision aid. The authors have taken a therapeutic area and considered the major classes of drugs, their actions and, to a limited degree, their uses.

978 0 85711 057 2 • £25.00 • Paperback • 288 pages • 2012 •
FASTtrack: Chemistry of Drugs
By David Barlow, By David Mountford

A revision guide on pharmaceutical and medicinal chemistry. The book covers all aspects of the chemistry of drugs and includes key points, tips, and self-assessment questions to aid in learning.

FASTtrack: Pharmaceutics - Drug Delivery and Targeting
Drug Delivery and Targeting
Second edition
By Yvonne Perrie, By Thomas Rades

This FASTtrack book systematically reviews important concepts and facts relating to the delivery and targeting of drugs. Relevant examples of delivery systems are given throughout the book with a focus on delivery systems that have actually reached clinical reality.

FASTtrack: Physical Pharmacy
Second edition
By David Attwood, By Alexander T. Florence

A revision guide for students giving bullet points of basic information on physical pharmacy. This text is derived from the textbook Physicochemical Principles of Pharmacy and is designed to be used alongside it for those revision periods when time is short.
Remington Education: Physical Pharmacy
By Blaine Templar Smith

Remington Education: Physical Pharmacy provides a simple, concise view of the concepts and applications of physical pharmacy.

FASTtrack: Pharmaceutics - Dosage Form and Design
Second edition
By David S. Jones

This revision guide for students delivers the essentials of dosage formulation in a concise and easy-to-use format.

Biomedical and Pharmaceutical Polymers
By Denis Labarre, By Gilles Ponchel, By Christine Vauthier

Presents a review of polymer chemistry research and development in pharmaceutics giving insights and information into the rationale behind the use of such molecules, their physicochemical characteristics, synthetic routes, and practical examples of formulation design using these substances.
Remington Education: Pharmaceutics
By Shelley Chambers Fox

Remington Education: Pharmaceutics covers the basic principles of pharmaceutics, from dosage forms to drug delivery and targeting. It addresses all the principles covered in an introductory pharmacy course. As well as offering a summary of key information in pharmaceutics, it offers numerous case studies and MCQs for self assessment.

978 0 85711 070 1 • £33.00 • Paperback • 560 pages • 2014 •

Physicochemical Principles of Pharmacy
In Manufacture, Formulation and Clinical Use
Sixth edition
By Alexander T. Florence, By David Attwood

This established textbook covers every aspect of drug properties from the design of dosage forms to their delivery by all routes to sites of action in the body.

978 0 85711 174 6 • £48.00 • Paperback • 664 pages • 2015 •
The official journal of the Royal Pharmaceutical Society covers news, analysis, features, opinion, learning and careers articles. It provides insight and knowledge about drugs, pharmacy practice, medicines use and healthcare policy in the context of the pharmacy profession and pharmaceutical sciences.
Clinical Pharmacist
This monthly, peer-reviewed journal provides authoritative resources on the clinical management of disease in relation to medicines and up-to-date information about advances in pharmacy and drug development. Clinical Pharmacist publishes review articles, perspectives, evidence-based CPD articles and practice reports on topics from drug discovery to clinical pharmacology and pharmacy.

Tomorrow’s Pharmacist provides insight into the realities of a career in the pharmaceutical sciences. It is a valuable resource for pharmacy students, preregistration trainees, and young pharmacists.
